MEP National Network Supplier Scouting Results – 2024-302 Natural Gas Meter Sets with Regulator

10/2/2024

The results for the Supplier Scouting Opportunity submitted on Wednesday October 02, 2024, are ready for review.

The National Institute of Standards and Technology Manufacturing Extension Partnership (NIST MEP) makes no claim that this report represents all capabilities in the U.S. to produce this item. The requesting organization will need to vet the identified manufacturers, if any, to determine whether they are a good match. We recommend contacting the Center POC prior to contacting the company.

Scouting results

Match Type	Number of Matches
Exact Match	0
Manufacturer currently possesses the capability to produce this item	0
Manufacturer currently produces a similar item	0
Manufacturer possesses relevant capabilities to allow production of this item with minimal retooling	0
No match	2

Summary

The above results for this supplier scouting instance have been recorded by NIST MEP. Each U.S. manufacturer identified represents a legitimate, potential, viable domestic manufacturer for this item.

Recommendations/Next Steps

NIST MEP recommends that you:

- Contact the Center's POC prior to contacting the company.
- Vet these companies for additional information.
- Provide regular updates on the status of this opportunity.
