

MEPNN Supplier Scouting Opportunity Synopsis

Section 1: General Information

Scouting Number	2025-071
Item to be Scouted	Rolling Bin / Poly Box Truck
Days to be scouted	30
Response Due By	04/11/2025
Description	Rolling bins will be used for this project to store jumbled, dirty reusable containers before they are cleaned in the dishwasher. These bins will be housed in a centralized washing facility and need to withstand daily heavy-duty use, maintain hygienic conditions, and be easily maneuverable in tight spaces.
Notify Requester Immediately	
State item to be used in	Hawaii

Section 2: Technical Information

Type of supplier being sought	Manufacturer
Reason	BABA
Describe the manufacturing processes (elaborate to provide as much detail as possible)	The body of the bin should be rotomolded or injection-molded polyethylene for durability and ease of cleaning. The base should be constructed of galvanized steel or another rust-resistant material to provide a sturdy frame and long lifespan. Smooth, welded seams are preferred to prevent residue buildup.
Provide dimensions / size / tolerances / performance specifications for the item	<p>Minimum Dimensions: 34x24x26"</p> <p>Minimum Capacity: 7.5 cubic ft</p> <p>Features: Must include heavy-duty swivel casters for ease of movement and a secure, ergonomic handle for maneuvering. Casters should include a locking mechanism to stabilize the bin when stationary. Must be easy to clean and sanitize to maintain hygiene. Smooth surfaces are preferred to prevent dirt or residue buildup.</p> <p>Similar in form and function to the following: (https://www.uline.com/Product/Detail/H-1956BLU/)</p>
List required materials needed to make the product, including materials of product components	We anticipate the item body to be Polyethylene and the base to be galvanized steel.
Are there applicable certification requirements?	No
Are there applicable regulations?	No
Are there any other standards, requirements, etc.?	No
NAICS 1	326199 All Other Plastics Product Manufacturing
NAICS 2	332311 Prefabricated metal building and component manufacturing
Additional Technical Comments	

Section 4: Business Information

Estimated potential business volume	Approximately 10 units needed.
Estimated target price / unit cost information (if unavailable explain)	\$275 per unit
When is it needed by?	July 2025
Describe packaging requirements	Best available. Delivered undamaged. Specifics discussed in negotiation.
Where will this item be shipped?	Hilo, Hawai'i

Additional Comments

Is there other information you would like to include?	For all BABA related questions Grace Ma Ma.grace@epa.gov
