

## North Dakota Employers/Workplaces,

Thank you for your continued efforts in stopping the spread of COVID-19 in your community and workplace. You are protecting the health of your employees and customers while ensuring our economy remains open and is thriving. The North Dakota Department of Health would like to inform you of some additional assistance regarding COVID-19 vaccines.

- **On-site workplace vaccination:** If your business/workplace has 30 or more employees and you are interested in an on-site vaccination clinic, please complete the [workplace vaccination interest survey](#) by April 30<sup>th</sup>. We will facilitate a workplace COVID-19 vaccination clinic for you.
- **On-site or virtual COVID-19 vaccine education:** If your business/workplace would like on-site or virtual COVID-19 vaccine education for staff, please complete the [request for education survey](#). We will provide tailored education for your workplace.
- **COVID-19 Community Corps:** You're invited to support the effort by joining the [COVID-19 Community Corps](#). As a member, you'll receive timely, accurate information to share with your family, friends, and neighbors. By encouraging them to get vaccinated, you'll help protect them – and allow all of us to *safely* gather together again.

Thanks.

Please do not respond to this message, as I will not receive it. If you need to email me, please email me directly at [mahowell@nd.gov](mailto:mahowell@nd.gov).
