

**SUND**  
MANUFACTURING

## WHAT WE DO

### Structural Welding

Highly trained professionals capable of fabricating custom or repeatable projects. AWS D1.1 certified in FCAW and GMAW processes.

### Pipe Welding

Experienced Welding Technicians utilizing advanced equipment to ensure quality and efficiency. Certified in API 1104, ASME Section IX and B31.3 Standards in SMAW, GMAW, and GTAW processes.

### Construction

Steel or wood constructed insulated buildings built to withstand the harsh climates where our equipment is in service.

### Paint And Blast

Advanced 7,000 Sq Ft coatings facility built to meet highly technical paint specifications and common industry standards. NACE CIP Level 1 Inspector on staff.

### Assembly

Small and large bore threaded and flanged connections. Hydrostatic and Pneumatic testing per B31.3. Expert personnel capable of producing complete, sub, and custom assemblies in a controlled environment ensuring high-quality standards.

### Electrical

Our team of knowledgeable Master and Journeyman electricians will ensure that the final product is ready to operate when it hits the field.
